

## PUMPS PARTS

### Couplers

#### Application

Pro-Fit™ heavy-duty spring couplers eliminate multiple inventories. With reinforced eyelets, one coupler fits all pumps with 1/2" motor shafts. Reinforced eyelets are designed for improved performance and extended life.

#### Features

- Rugged, cast zinc with steel reinforced eyelets to increase life of coupler
- Heavy-duty spring
- Fits all 1/2" motor shafts
- Standard Woods 3-J for all 5/8" motor shafts (optional 1/2" inserts included)

### Impellers

#### Application

Durable, Noryl® Pro-Fit™ impellers replace all Bell & Gossett\* and Armstrong\*\* pumps through 3/4HP models. Designed to match original performance curves and reduce whole-

saler parts inventories over 50%. One impeller can be used for closed or open systems, cast iron or bronze pumps.

#### Features

- Durable, composite Noryl® construction
- Replaces all steel, brass, & plastic impellers
- Integrally molded, brass key insert for added strength
- Designed for open or closed system applications
- Matches Bell & Gossett\* and Armstrong\*\* original performance curves

### Motors

#### Application

High quality Pro-Fit™ motors are made in the USA and designed to replace all Bell & Gossett\* and Armstrong\*\* fractional HP motors up to 3/4HP. Permanently lubricated, ball bearing construction make Pro-Fit™ replacement motors

maintenance-free. All motors are fitted with rigid, steel mounting cradles with resilient motor mounts to facilitate easy alignment of motor and pump shaft and ensure quiet, vibration-free operation. Note: 3/4 HP motors are C-Face mount.

#### Features

- Made in USA
- Ball Bearing Construction, Permanently Lubricated, Maintenance Free
- Quiet Operation
- ODP-Open Drip Proof design
- Automatic Thermal Overload
- Finned End Rings for improved cooling
- Class B Insulation
- Steel Motor Housing
- Corrosion Protection Coating
- Carbon Steel Shaft
- 1725 rpm, 4 pole

### Seal Kit

#### Application

One universal seal kit fits all models with 1/2" pump shaft. Ceramic & carbon

surfaces designed for extended wear and long life.

#### Features

- Ceramic & Carbon facing surfaces
- 1/8 Stainless Steel Spring, holder & retainer
- Buna N Cup & Bellows
- Universal Seal Kit fits all pump models
